IMPORTANT NOTICE **ASPHALT SEAL COATING PROGRAM**

Silver Shores Residents,

Weather permitting, on October 18 seal coating and pavement markings of the asphalt areas in your community will begin, starting on the west side. Each of the seal coat days (24 hours) will consist of a seal coat application and temporary striping. This means that you will not be able to drive on your asphalt area for one full day. A site plan has been developed and will be shared with you identifying the specific dates your area will be impacted. In case of rain, each program phase may be moved to the next day and will follow the same sequence. Watch for signs of notification at the entrance to your parcel.

Each day the program will start at approximately 9:00 AM. You will need to relocate your vehicle (s) outside the phased area the evening prior to your seal coating application. When parking your vehicle elsewhere within the development, you will need to park on the side of the street with odd address numbers. Parking restrictions will be eased during this period for those parking according to these instructions. Your vehicle (s) will need to remain outside the restricted area until the barricades are removed. We will need to make sure that a newly seal coated area is not walked or driven on for at least 24 hours. We will also need to be cautious of areas that may look wet or are of a different color, as it may not have cured enough to walk or drive on.

Barricades and/or twine will be used to block off a phased area until it is ready to walk or drive on. Sprinkler systems in each of the phased areas will need to be turned off 24 hours before, during and after the scheduled work.

IT IS IMPORTANT THAT YOU PASS THIS INFORMATION ON TO YOUR SERVICE VENDORS, GUESTS, RENTORS, CONTRACTORS, HOUSESITTERS AND ANY OTHERS YOU THINK NEED TO BE INFORMED OF THIS, BEFORE THE SPECIFIC DATES FOR YOUR APPLICATION.

Please remember that the new seal coating or paint in your area will be damaged as a result of anyone walking or driving on it before the end of the recommended time periods or barricade removal. Repairs or touch ups will be at the cost of the individual damaging the area, not the Association. Also, if the contractor is unable to properly seal coat an area due to a vehicle (s) parked in the phased area, any additional charges to return and complete the work will be at the cost of the homeowner causing the delay, not the Association. This will also be true of costs of towing a vehicle if that becomes necessary.

This is a major undertaking for our community, but the improvement to our streets will be worth the inconvenience. Thank you for your understanding and patience while this program is underway.

RESIDENTS

SEAL COATING OF COMMUNITY

STREETS WILL TAKE PLACE

DURING THE MONTH OF DECEMBER!

PLEASE VISIT THE SILVER SHORES

WEBSITE, THE CLUBHOUSE OR ATTEND

SPECIAL MEETINGS FOR DETAILS.

TOWN HALL MEETINGS WILL BE POSTED

AT ENTRANCE TO PARCELS
